EDUCATION

Columbia University, New York City, NY

September 2017 - May 2022

Concentration in computer science and a track in applications

PROJECTS

Web Development Portfolio Website

Utilizing HTML, CSS, Javascript, and Bootstrap, I created a responsive, interactive, and design-oriented website to showcase my web development and UI/UX design projects as well as my resume. Link: galdean.github.io

Hackathon Database Website

Utilizing Flask, HTML, CSS, jQuery, and Bootstrap, this webpage allows users to interact with information about hackathons in the U.S. by viewing server data, creating new data that is added to the server, viewing data, and searching the data.
